Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings were received on 3/28/05. These drawings are approved.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 25-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yazawa (US 6,273,626 B1).

Yazawa discloses a guard/pad/shroud 10 comprising a main body E with an inner surface being spaced away from a wall 10 by spacing H and an outer surface including various sets of flexible ribs 1, which are flexible relative to the body E, as shown in figures 9 and 10. Yazawa does not disclose the shroud for a vehicle. It would have been obvious to one having ordinary skill in the art at the time of the invention to have used the shroud of Yazawa on a vehicle body or any other apparatus that required padding and/or grip.

With respect to claim 34, the material used to manufacture the pad/guard is not patentable unless it produces an unexpected result, therefore it would have been obvious to one having ordinary skill in the art at the time of the invention to have

Art Unit: 3618

manufactured the pad/guard/shroud of Yazawa of a non-foam, polymeric material in order to obtain the properties of that specific material such as insulating and durability benefits.

Allowable Subject Matter

3. Claims 1-24 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 25 and 35 have been considered but are moot in view of the new ground(s) of rejection. The applicant's amendment warranted the rejection based on the new reference of Yazawa.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3618

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
